

STAND-ALONE GARAGES RE-ROOFING

The next phase of re-roofing of the stand-alone garages will commence on August 29. The work will begin with two garages on Anne, then will progress every 7 to 10 days with the next set of garages on the list below. Notices will be placed on each affected garage prior to the start of work. There is nothing residents must do to prepare for the scheduled work. However, at times the roofers' truck may temporarily block access to a garage. If you need access, simply ask the roofers to move their truck for you.
